My Goals and Plans

★ Goals are things that you want to achieve in the future. They are things that will help you to be prepared and ready for change at school or in your life. It is important that you think about goals early because then you can work out how to achieve them. Achieving goals means that you will be able to study the subjects you like, do the types of occupations you prefer, and keep your future options open. If you meet a goal throughout the year, set a new one for yourself.

- ★ Think about goals that relate to school and life. For example, a school goal might be to read 15 books this year, and a life goal might be to go for a bike ride at least 4 times a week.
- ★ Think about why the goals you have made are important. For example, reading 15 books will help you to do well at school, and riding your bike at least 4 times a week will help you to stay healthy.
- ★ Think about how long it will take you to achieve your goals. Some goals are short-term which means you can achieve them in a few weeks. Some goals are long-term which means it might take a year or more before you can achieve them.

What is my goal?	How will I do it?	Why is it important?	When will I do it by?

★ You may need some help from allies to achieve your goals. Allies are people who can help you in different ways, like family members, community members, teachers, friends and other people you trust.

Who can help me?	How can they help me?

My Review

★ Throughout the year it is important for you to spend some time thinking about the goals and plans you set for yourself, and what it was like discovering your strengths and interests. Reflecting on what you wrote in your Career Action Plan throughout the year, you might need to include some new things in your next Career Action to help you to achieve your long-term goals.
